CORE SKILLS

Modern C++ (C++17/20)

Embedded C/C++

JUCE (Audio Dev)

DSP & Audio Processing

RTOS (FreeRTOS)

STM32 | ESP32 | Arduino

Embedded Linux

MATLAB & Simulink

CMake | Git

Qt / QML (Basic)

TOOLS & TECHNOLOGIES

Visual Studio	VS Code
JUCE	CMake
STM32CubeIDE	ESP-IDF
MATLAB	Simulink
Git / GitHub	Linux (Basic)

CERTIFICATIONS

- Advanced C++ Programming and Modern Practices**
Microsoft (Coursera) · ID: VBQV3MRY4290
- Embedded Software Development with C**
Coursera · ID: IK982UF55NMW
- AIML for Geodata Analytics**
IIRS, ISRO · ID: 2026235026965
- Earth Observations & Numerical Model Applications for Tropical Cyclone Monitoring**
IIRS, ISRO · Aug 2026
- Fundamentals of Remote Sensing**
NASA ARSET · ID: 6321708699JK
- IoT Foundations: Fundamentals**
LinkedIn Learning · ID: 9787eb9e...c6169

JAIDEV KAMBOJ

Software Engineer

Modern C++ | Embedded C/C++ | JUCE | RTOS

Software Engineer with hands-on experience in Modern C++, Embedded C/C++, JUCE and real-time software development. Experienced in building audio applications, embedded systems and IoT projects using STM32, ESP32, FreeRTOS and hardware interfaces. Skilled in object-oriented programming, debugging, CMake, Git and Visual Studio, with practical experience in real-time audio processing and microcontroller-based systems.

WORK EXPERIENCE

Freelance Software Engineer
Karnal, India

Jan 2026 – Present

- Developing desktop audio applications using JUCE and Modern C++.
- Working on embedded system and IoT projects using STM32 and ESP32.
- Building and optimizing real-time audio processing features using DSP concepts.
- Software development, prototyping, debugging and technical support.

Sales and Marketing Specialist
Harman Professional Solutions India · Hybrid

Oct 2018 – Mar 2020

- Developed and maintained strong client relationships in the Audio Visual (AV) and Live Sound sectors across North India.
- Conducted engaging product demonstrations to showcase the capabilities of HARMAN Professional Solutions' offerings.
- Focused on driving sales growth through strategic marketing initiatives and customer engagement.

PROJECTS

JaidevKambojDJPlayer (JUCE)
C++ | JUCE | DSP | Audio

Professional DJ player built with JUCE. Features dual decks and real-time audio mixing.

GitHub ↗

ESP32 Industrial IoT Environmental Monitoring Gateway
ESP32 | I2C | Sensors | IoT | Wi-Fi

Monitors temperature, humidity, pressure, light, sound and distance in real time.

GitHub ↗

STM32 Smart Vehicle / Environment Monitor
STM32 | Sensors | Embedded C

Real-time monitoring of environment parameters with display and sensor interfaces.

GitHub ↗

DSP Signal Processing (MATLAB/Simulink)
MATLAB | Simulink | DSP

Designed and simulated audio signal-processing algorithms and filters.

GitHub ↗

EDUCATION

B.Sc. in Information Technology
Kurukshetra University, Haryana

2015 – 2018
